Agenda Item

Discussion and consideration of approval of Resolution No. 2010-03 establishing a CMOM Fee and revising the Water Treatment Plant Fee and Utility Billing User Fee.

Summary

The proposed resolution will establish a CMOM fee of \$8.00 per month which will be assessed on sanitary sewer customers only. This fee will pay for the current \$5 million DEQ Consent Order Project to replace and repair many of the City's wastewater treatment lines.

The resolution will also amend the Water Treatment Plant Fee and the Utility Billing User Fee so the fees are assessed per household (unit) rather than per meter. While a multiplier currently exists for the base water and sanitary sewer rates for master meters at multi-family living complexes, a multiplier does not exist for Water Treatment Plant Fee or Utility Billing User Fee. The multi-family complexes with a master meter have been paying these fees at a single rate per month rather than per household (unit) per month.

If approved, these changes will be in effect immediately.

On June 15, 1993 the Utility Billing and Collections Policy was adopted and since that time several revisions have been implemented. With the utility rate increases, staff is recommending the following revisions be approved to accommodate a better relationship with our customers:

- increasing the number of utility extensions from two to four in a calendar year;
- for residential customers, accepting Letter of Prior Payment History (Letter of Credit) in lieu of a cash deposit.

“EXHIBIT A”

UTILITY BILLING AND COLLECTIONS

Policy Purpose:

The following policies are to be followed by City of Guthrie personnel in the establishment of utility service, monthly billing, and collection of the service provided. The policies are designed to inform the customers of their commitments relating to the service and provide personnel with direction in performance of their duties to provide the utility service.

Application for Service:

The Trustees of the Guthrie Public Works Authority, a public trust created and existing under the laws of the State of Oklahoma provide certain utility services to the citizens of Guthrie and certain areas outside the corporate city limits.

All individuals requesting services provided by the Guthrie Public Works Authority shall first make an “Application for Service”.

The application for service will provide the potential customers with deposit information, the Authority’s expectations relating to timely collections and conditions of the premises prior to establishment of service along with other vital requirements and regulations pertaining to the potential customer.

Contract for Service:

Each individual requesting service shall be required to complete a “Contract for Service”. The Contract for Service shall be maintained by the utility billing office in alphabetical order on all active customers.

Delinquent Accounts:

Service shall not be initiated by any potential customer who has an outstanding balance due to the Authority from a previous service until all delinquent account(s) are paid in full or resolved to the satisfaction of the Authority and the appropriate utility deposit is placed with the Authority to establish new service.

Identification Requirements:

Each individual requesting utility service shall be eighteen (18) years of age and will be required to provide the utility billing department with some form of photo identification as to their identity. Should the age of the applicant be questionable, the utility billing department shall require proper documentation of age. If photo

identification is unavailable, a copy of the rental agreement or abstract stating address will be sufficient.

Service Initiation:

The water service shall not be initiated by the water department unless the customer or his/her representative is present and the fee paid as determined by resolution by Authority action. The water department can connect the service if customer is not present, however, it will be the customers responsibility to initiate the service.

Utility Deposit Required:

Customers desiring utility service by the Guthrie Public Works Authority shall be required to establish a deposit with the treasurer in the amount determined by resolution by Authority action.

If the utility service is disconnected for non-payment, an additional deposit equal to an average of the prior six (6) months billing will be required before utility service will be re-established.

The Guthrie Public Works Authority will accept a letter of prior payment history from a similar type utility company in lieu of a cash deposit for residential customers. The letter of prior payment history must be presented at the time of application for service. The customer must have had twelve (12) months continuous utility service within the last eighteen (18) months and have had no more than two (2) late payments, no collection charges, no cut-offs and no returned checks within the service year. If the letter of prior payment history is received within two weeks of application for new service, the cash deposit will be applied to their account. The letter of prior payment history must show the same name as the person requesting service from the Guthrie Public Works Authority.

Accounts which have a letter of prior payment history rather than a cash deposit will be required to post cash deposit if the account is disconnected for nonpayment.

Billing Cycle:

There will be one (1) billing cycle per month for the Authority's utility customers. Normal reading dates for water customers will commence approximately on the third (3rd) calendar day through the twentieth (20th) calendar day of each month. Bills will be edited in the utility office for accuracy and mailed the last working day of each month.

Due Dates:

Customers' utility bills will be due on the fifteenth (15th) of the month following billing. This will provide fifteen (15) days for utility customers to pay without penalties.

Delinquent Dates:

Any utility customer account that has an outstanding balance on his/her account past the due date of the fifteenth (15th) of each month shall be considered delinquent and late charges will be assessed as determined by resolution by Authority action.

Second Notices:

Second Notices will be generated to each utility customer who is past due for one (1) month. The Second Notice will state the delinquent amount due and cut-off date in which an account can be paid before the cut-off date to avoid disconnection or interruption of service. Second Notices shall be mailed the next working day following the customer due date unless the fifteenth (15th) is on a Saturday, Sunday or on a holiday, then the utility customer will have the next working day to pay before the Second Notices are mailed. The services shall be considered delinquent past the due date of the fifteenth (15th) of each month.

Payment Extensions:

It is the responsibility of the utility customer to keep his/her account in good standings with the Authority by avoiding interruption of water service due to a delinquent account. Utility staff is authorized to enter into an extension arrangement by appearing in person to sign a written agreement unless special arrangements have been made by the utility staff to waive your personal appearance. Any arrangement not kept by the utility customer could result in denial of any future agreements past the established due date. Each request will be reviewed to determine if it is in the best interest of the Authority for repeated extensions. Extension arrangements are limited to four (4) agreements per utility customer per calendar year.

Cut-Off Procedures:

Delinquent accounts shall be processed for interruption or disconnection of service on the date for disconnection that has appeared on the utility customer's Second Notice. If payment is not received in the utility office before the disconnection date stated on the Second Notice, service will be disconnected by our meter representative without further notice. Service will not be resumed until the delinquent balance due, including the disconnection fee, and an additional deposit has been paid to the Authority in full. The Authority reserves the right to

restore service within twenty-four (24) hours of payment being received in the utility office. Any payments received after 5:00 p.m. on the cut-off date stated on the Second Notice must be in full to avoid disconnection or interruption of service. Any payments received in the Night Deposit will not be processed until the morning of the next working day.

Insufficient Checks:

The Guthrie Public Works Authority, by resolution, shall establish a charge to be levied for all checks which are tendered as payment for utility services and which are returned dishonored by the bank they are written on for any reason.

Establishment of Utility Rates:

The Guthrie Public Works Authority shall establish, by resolution, utility rates which will accomplish the following:

1. Maintain the proportionate distribution of operation and maintenance costs among users; and
2. Generate sufficient revenue to pay the total operation and maintenance cost necessary to the proper operation and maintenance (including replacements) of the treatment works; and
3. Apply excess revenue collected from users to the costs of operation and maintenance and/or as the Authority may direct. Sewer use rates shall be adjusted accordingly.

To assure that the Guthrie Public Works Authority accounts for annual inflation, it is resolved that the Authority will vote on adjusting rates every year.

Deposit of Utility Receipts:

The receipts collected through the utility billing office shall be deposited daily by the treasurer's office. The depositor shall be accompanied to the bank by an officer of the Guthrie Police Department.

Adjustments

1. If a water leak occurs on the customer's water service line, the only portion of the billing that will be adjusted is the sanitary sewer charge for that billing period. Adjustments will be calculated on the previous six (6) months average billed to the customer for said sanitary sewer service, as authorized by the City Treasurer.

2. Should it become necessary to back-bill a customer for utility services which have not been previously billed, a maximum of twelve (12) months period shall be generated to the customer for the back billing.
3. Should an error occur in billing due to readings, the customer's account will be adjusted for the months that are in error dating back no further than twelve (12) months after a correct reading is attained by a City of Guthrie personnel.
4. Should an error occur in the billing more than the twelve (12) month period, the customer's account may be adjusted with written approval from the City Manager.
5. Criteria for Major Water Leak Adjustment:
 - a. Determination of minor/major leak by the City's Plumbing Inspector.
 - b. Evidence from a registered/certified local plumber stating the location and repair of leak (this will also notify the Utility Office if sanitary sewer charge needs to be adjusted if the account is not on average).
 - c. Copy of the City's Plumbing Permit and action taken by the Plumbing Inspector.
 - d. The Guthrie Public Works Authority shall establish, by resolution, an adjustment rate for a major water leak.

Agenda Item

Discussion and consideration of adopting Ordinance No. 3210 amending water rates for the City of Guthrie and the Guthrie Public Works Authority for multiple years and declaring an emergency.

Summary

The proposed Ordinance is a five year water rate adjustment plan to bring the City's utility revenue up to the level to meet the debt service on the Water Treatment Plant. At the end of year five, there will be sufficient revenue to make the \$1.1 million annual payment. The proposed rate plan will also allow the City to restructure the debt service to equal annual payments rather than escalating annual payments. Doing this will save approximately \$1.9 million in interest over the life of the loan.

The rate adjustment for year one will go into effect with the utility bills mailed on or about September 30, 2010. The subsequent year's rate adjustments will go into effect with the utility bills mailed on or about the last day of September of 2011, 2012, 2013, and 2014. The adjustments are a mix of base rate adjustments and usage charges. The average increase will be about \$2.00 per month each year.

The proposed 8th self-audit and the engineering phasing report have been revised and the list of sanitary sewer overflows has been matched to the list provided by the DEQ of the significant non-compliances (SNC) and has been prioritized accordingly. The sewer main lines and manholes have been identified and the cost of repair or replacement is included in the report.
