

**RATES TO BE EFFECTIVE WITH THE UTILITY BILLS TO BE MAILED ON  
OR ABOUT OCTOBER 31, 2019**

*(Resolution No. 2016-03, approved May 3, 2016)*

**SANITARY SEWER RATES SCHEDULE**

RESIDENTIAL (Inside City Limits) \$13.82 per month (minimum) plus  
\$3.27 per 1,000 gallons of  
metered water

RESIDENTIAL (Outside City Limits) \$13.82 per month (minimum) plus  
\$3.27 per 1,000 gallons of  
metered water

For any residential not served by GPWA water, the average water usage for determining minimum sanitary sewer usage charge shall be determined as 5,000 gallons of metered water.

DUPLEXES AND TRIPLEXES \$15.00 per month (minimum) plus  
\$3.27 per 1,000 gallons of  
metered water

The \$15.00 per month minimum shall apply to each separate family living unit in the duplex or triplex - occupied or not - if the units are served by a single water meter.

MULTI-FAMILY (FOUR UNITS OR MORE) \$15.00 per month (minimum) plus  
\$3.27 per 1,000 gallons of  
metered water

If the units are served by a single water meter, the \$15.00 per month minimum shall apply to each occupied unit – the number of occupied units to be determined by average occupancy rate as established by semi-annual occupancy verifications – to be provided by complex owner.

For any complex – duplex, triplex, or multi-family – not served by GPWA water, the average water usage for determining minimum sanitary sewer usage charge for each occupied unit shall be determined as 5,000 gallons of metered water.

COMMERCIAL (Inside City Limits) \$18.53 per month (minimum) plus  
\$3.27 per 1,000 gallons of  
metered water

COMMERCIAL (Outside City Limits) \$18.53 per month (minimum) plus  
\$3.27 per 1,000 gallons of  
metered water

For any commercial facility not served by GPWA water, the average water usage for determining minimum sanitary sewer usage charge shall be determined by GPWA staff, with the City Manager making final confirmation.
